Why use original oil only?

Kayaba has been developping in all this years of experience High quality oils for their suspensions. This is because they have developped their oils specificly for suspension use only. The oil viscosity, the additives, everything has been specifically selected just to reach one goal, the best oil for the best results. And so it has become! The original Kayaba oil is beeing used from developpement, to testing, from standard production to the World championship racetracks.

As you know, the oil quality has great influence on the way suspensions work, its specifications mostly effects friction, oil flow, heat dispersion, parts lubrification... lets say performance in general.
All Kayaba suspensions are being developed from the beginning to be used with the original oil.
All tests have been done by using the original oil, and best performance has been achieved by using the original Kayaba oil.By using original oil only you have the guarantee that your suspension will perform the way they are ment to.
