

# The Conveyor Shop

The only shop you will ever need

## EP: FABRIC CONVEYOR BELT

Example: 1000mm EP 630/4 6/2 Y

**1000mm**

**Belt width in mm**

**EP**

**Carcass material (polyester warp / polyamide weft)**

**630**

**Belt's minimum breaking strength in N/mm**

**4**

**Number of plies**

**6**

**Top cover thickness in mm**

**2**

**Bottom cover thickness in mm**

**Y**

**Rubber cover grade**

\* Note 1: In some regions, PN is used instead of EP, where P stands for Polyester and N for Nylon. However, Nylon is a trademark, not a scientific term.
